RAIZE SOFTWARE

Providing High Quality
Developer Tools Since 1995

CODESITE

CodeSite is a logging system that gives developers deeper insight into how their code is executing, enabling them to quickly identify and locate problems, and monitor how well their code is performing

DropMaster

DropMaster is a set of components for adding inter-application drag-and-drop support to VCL applications

Inspex

Inspex is a set of VCL grid controls specifically designed for inspecting item lists, objects, and even datasets

ScratchPad

ScratchPad is a general-purpose, multi-file, syntax-highlighting text editor with a sleek and efficient tabbed interface

Raize VCL Styles

Raize VCL Styles is a collection of modern, high-quality interchangeable styles supporting light and dark themes
